DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6, 8-18, and 20-27 are allowed. Regarding claims 1-6, 8-13, and 25-27, Examiner's reasons for allowance has been stated in a previous action.
2. Regarding claims 14-18 and 20-24, the following is an examiner's statement of reasons for allowance:
3. The provision for a computerized system for simplifying web contents, comprising a server computer and a user computer arranged in a network; said server computer comprising a first server element for acquiring a target page, a second server element for generating URLs of adjoining pages which are to be compared with said target page, a third server element for acquiring said adjoining pages in accordance with a Document Object Model comprising image nodes and text nodes, a fourth server element for comparing each object included in said target page and said adjoining pages, a fifth server element for determining commonality of said objects and deleting common objects from said target page to generate a simplified page, a computer-implemented module for calculating a significance of the objects included in said target page, a computer-implemented module for not deleting said objects if said significance exceeds a first threshold, even if said objects are common with the objects of said adjoining pages, and a computer-implemented module for deleting said object if said significance is less than a second threshold, or a content of said objects is an empty table element or list element; wherein said user computer comprising a user browser for

audibly outputting said simplified page is not fairly taught or suggested by the prior art of record. Support for this functionality can be found in the Specification, p. 9, paragraph [0062] through p. 10, paragraph [0063]; p. 16, paragraph [0115]; Fig. 1 and 8.

4. The provision for a program storage device readable by machine, tangibly embodying a program of instructions, which when executed by a machine, perform a method for simplifying web contents, said method comprising requesting access to a target page, said target page comprising a web page; acquiring a target page; acquiring adjoining pages that adjoin said target page in accordance with a Document Object Model comprising image nodes and text nodes; performing a difference operation for deleting objects that are common among said target page and said adjoining pages from said target page, wherein said difference operation comprises calculating a significance of the objects included in said target page, wherein if said significance exceeds a predetermined threshold, said objects are not deleted even if said objects are common with the objects of said adjoining pages; generating a simplified page; and audibly outputting said simplified page is not fairly taught or suggested by the prior art of record. Support for this functionality can be found in the Specification, p. 9, paragraph [0062] through p. 10, paragraph [0063]; p. 16, paragraph [0115]; Fig. 1 and 8.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments, filed 08/01/05, with respect to claims 1-6, 8-8, and 20-27 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
